Battery Pack Test Procedures 6000-110 Rev. A

## **BOSS Operations Manual 6000-019 Rev. P, BOSS s/w 2.9**

1. **Index** moved to the end of the book.
2. **About This Book:**

In Documentation Roadmap, p.18: Added part numbers for the User Manuals.

3. **Chapter 2 Options for Active Contests:**

In Overview, p. 92: From the 5th bullet, removed:

(except for "vote for N of M" **Office** type contests)

In Options Available for Contests, p. 96, from the table under General options to define for each contest: From the 5th bullet, removed:

(Not applicable for "vote for N of M" **Office** type contests)

4. **Chapter 7 Ballot Generation:**

In Reviewing Ballot Formats, p. 160:

Added to the list of paper templates shown in Fig. 7-5.

Changed the election date to 05/28/02 in Fig. 7-4 and Fig. 7-5.

In Reviewing Ballot Formats, p. 166:

1st sentence: changed "written to MBBs" to "created".

5. **Chapter 8 Reports:**

New pictures of windows for **Polling Place List - Election Day Voting - Summary** and **Polling Place List - Early Voting - Summary** reports.

Polling Place ID documented for **Polling Place List - Election Day Voting - Summary** and **Polling Place List - Early Voting - Summary** reports.

6. **Appendix B Sample Reports:**

New copies of sample of **Polling Place List - Election Day Voting - Summary** and **Polling Place List - Early Voting - Summary** reports.

**Tally Operations Manual 6000-049 Rev. N, Tally s/w 2.9**

1. **Index** moved to the end of the book.

2. **About This Book:**

In *Documentation Roadmap*, p.16: Added part numbers for the User Manuals.

3. **Chapter 2 Pre-Election Activities:**

In the Notes about deleting candidates from the **Write-In Candidates** window, page 35: Added documentation for:

If you try to delete a candidate from the **Write-In Candidates** window and votes for that candidate have already been assigned in the **Assign Write-Ins** window, the **Candidate Deletion** dialog box appears.

Page 45: 1st paragraph under **Tabulation Tests with Test Mode MBBs:**

Added: "and **Ballot Now**" after "during test voting in the **Precinct Voting System**"

4. **Chapter 6 Reports:**

Replaced all pictures of report windows.

Added documentation to describe the Headers on the reports that now have total number of voters who have voted, total registered voters in the election, percentage of number of voters who have voted out of the total registered voters, precincts reporting, total precincts, and percentage of precincts reporting out of total precincts.

5. **Appendix C Sample Reports:**

New copies of all sample reports.

**Ballot Now Operations Manual 6000-067 Rev. I, Ballot Now s/w 1.5**

1. **Index** moved to the end of the book.

2. **About This Book:**

In *Documentation Roadmap*, p.14: Added part numbers for the User Manuals.

3. **Chapter 3 Printing Ballots:**

Page 36, Figure 3-9: replaced with new window (Language option is gone).

Page 37, Table 3-6: removed Language option.

Page 38, Figure 3-11: replaced with new window (Language option is gone).

Page 39, Table 3-9: removed Language option.

Page 41, Figure 3-12: replaced with new window (VOTE BOTH SIDES is printed on the bottom of the duplex ballot).

Page 42, Figure 3-13: replaced with new window (VOTE BOTH SIDES is printed on the bottom of the duplex ballot).

Pages 43, 44, 45 Printing ballots:

Added the following step to the end of the procedure:

- 8 If the printer jams during ballot printing:
  - a. Remove the jammed documents from the printer.
  - b. When the printer restarts, destroy any duplicate ballots that have printed. (Look at the ballot serial numbers.)

#### 4. Chapter 5 Scanning Voted Ballots:

Page 54, Figure 5-3: replaced with new window to show all supported scanners.

Page 55, Table 5-1: added Kodak 9520, 3500, 3520, and 1500 and Fujitsu M4097 to the list of supported scanners.

Page 56, Figure 5-4: replaced with new window to show all supported scanners.

#### 5. Chapter 6 Resolving and Recording Scanned Ballots:

Page 71, Table 6-5, Blank Ballots check box:

Changed second bullet to read:

Remove the check mark from this check box to have all contests on blank ballots resolved as undervotes ...

Page 73, at the bottom of the page, added:

**NOTE:** If you "Confirm" the overvoted or undervoted contest and then decide to award the vote, BEFORE you click SAVE you must:

- a. Click CANCEL in the **Resolve Contest** window to cancel your actions, then
- b. Click RESOLVE BALLOT to open the **Resolve Contest** window again and resolve the contest.
- c. Click SAVE.

Page 85, at the bottom of the page, added:

**NOTE:** CVRs are saved to the MBB on a batch-by-batch basis. The CVRs for a batch can only be saved to the MBB if all ballots in that batch are resolved.

## 6. Appendix A Ballot Now Image Processor, Page 133

Removed the version from the title.

### **PVS Early Voting Manual - D 6000-108 Rev. A, JBC s/w 1.16**

This manual describes the poll worker's duties at Early Voting time with a JBC 1000B (Deepdish JBC). It is a revised version of PVS Early Voting Manual B, 6000-069 Rev. D.

1. Major revisions were made to include the deepdish JBC battery pack key and exclude disconnecting the eSlate battery packs.
2. New Power Failure procedures.

### **PVS Election Day Voting Manual - IVD 6000-108 Rev. A, JBC s/w 1.16**

This manual describes the poll worker's duties on Election Day with a JBC 1000B (Deepdish JBC). It is a revised version of PVS Early Voting Manual IVB, 6000-053 Rev. G.

1. Major revisions were made to include the deepdish JBC battery pack key and exclude disconnecting the eSlate battery packs.
2. New Power Failure procedures.

### **Battery Pack Test Procedures 6000-110 Rev. A**

This document describes the battery testing procedures for a JBC 1000B (Deepdish JBC) and eSlates. It is a revised version of Battery Pack Test Procedures 6000-093 Rev. B.

1. Changed Battery Box to Battery Pack Key.
2. Changed opening the Battery Box to opening the JBC Battery Pack covers.
